CAM-400

UNMANAGEABLE 8 POE PORT SWITCH 10/100/1000M.

- Unmanaged 8-Port Gigabit PoE Switch
- 8 self-negotiated RJ45 10/100 / 1000M PoE ports
- Automatically detects connected devices
- Transmission up to 250 meters
- Plug & Play, no configuration needed
- Maximum PoE output of 30W
- Total consumption of 96W
- PoE Port Priority
- Storage and forwarding (store and forward)
- Transmission model IEEE802.3X full-duplex / Backpressure half-duplex
- 16Gbps backplane bandwidth
- Packet transfer rate of 11.9Mpps
- MAC addresses: 8K
- Standards: IEEE802.3i 10 BASE-T, IEEE802.3u 100 BASE-TX, IEEE802.3ab 1000 BASE-T, IEEE802.3x with flow control, IEEE802.3af (PoE), IEEE802.3at (PoE +), IEEE802 .3az EEE
- Power supply of 200V ~ 240V AC, 50 / 60Hz
- Operating temperature -10 ° C ~ + 45 ° C
- Humidity of 10% ~ 90%
- Use UTP CAT5 cable or higher

KEY FEATURES

- Unmanageable 8 PoE port switch 10/100/1000M
