

CAM-1306

STABILIZED POWER SUPPLY ADAPTER 12V DC/1,5A

KEY FEATURES

- Stabilized power supply adapter 12V DC/1,5A
- Ideal to install inside junction box
- Extended working temperature

- Stabilized power supply adapter 12V DC/1,5A
- Nominal input: 100V ~ 240V AC, 50/60Hz, 0,6A
- Output voltage: 12V DC (+7%, -3%)
- Current output: 1,5A (+70°C)
- It incorporates protection against overvoltages, against overheating, over current and protection of voltage load
- Led indicator
- Extended working temperature: -30°C ~ +70°C (the total load efficiency at these temperatures can be up to 100%)
- RH: 5% ~ 95%
- Dimensions: 51,9 (H) x 77,3 (W) x 30 (D) mm
- Weight: 95 g
- Ideal to install inside supports and junction box
